

Mastech Digital Announces New deals Worth \$23 million signed in December 2019

The Company's Data and Analytics business, branded Mastech InfoTrellis, signs multi-year, multi-million-dollar COE deals with several large US Companies

PITTSBURGH, PA – February 12, 2020 – Mastech Digital (NYSE American: MHH), a leading provider of Digital Transformation IT Services, announced today that its Data and Analytics business, branded as Mastech InfoTrellis, signed orders worth \$23 million during the month of December 2019.

Such a large value of bookings in one month is unprecedented for the Company. These new orders have been received from blue-chip customers in the financial services, pharma, and healthcare verticals. Most of the order value has come from two large Center of Excellence (“COE”) assignments, which are multi-year annuity engagements. These bookings are not only a strong leading indicator of future revenue growth but should also help mitigate some of the lumpiness in our quarterly results from the data & analytics business.

Commenting on these large wins, Vivek Gupta, President and CEO, Mastech Digital, said, **“Considering that Mastech InfoTrellis delivered annual revenues of \$24 million just a year ago, these large orders are a testament to the yeoman efforts from Paul Burton and his team during 2019. With significant enhancements to our service offerings, a vastly improved backlog of work on hand and a robust pipeline driven by an energized sales engine, the future looks very promising for our Data and Analytics business.”**

Commenting on the transformation of the business unit, Mastech Infotrellis’s Chief Executive, Paul Burton, said, **“I am excited to see the results of all the hard work put in by the team since I came on board a year ago. Our Center of Excellence service offering has gained traction with our clients and has positioned us as a strong long-term partner for all their data & analytics needs. These COE engagements also give us a more predictable annuity-based revenue stream. The deals signed in December are just the beginning. There are more multi-million, multi-year COE deals in the pipeline.”**
